# Scott Chase Waggener

MACHINE LEARNING · DATA SCIENCE · ARTIFICIAL INTELLIGENCE

989 Loop Rd, Apt 3.422, Richardson, Texas, 75080

📞 (361)-215-6102 | ✉️ scw180000@utdallas.edu | 📱 TidalPaladin

## Experience

### Cambria Adara Properties, LLC.

#### INFORMATION TECHNOLOGY

- Provided service to several night clubs throughout the state of Texas.
- Maintained CCTV systems and local area networks.
- Remotely managed company computers through VNC and Teamviewer.
- Ensured compliance with payment card industry requirements.

San Antonio, Texas

Nov. 2008 - Jan. 2014

### Paladin Technologies, DBA.

#### SOLE PROPRIETOR & SOFTWARE ENGINEER

- Provided information technology services to Cambria Adara Properties, LLC, as an independent contractor.
- Upgraded ATM machine hardware and software at approximately 50 locations to ensure EMV compliance.
- Prototyped a centralized smart home control system based on the Raspberry Pi for a client overseas.
- Created circuit board designs using CAD software.
- Designed an open source digital signage solution for the Raspberry Pi.
- Developed firmware in C/C++ for the Espressif ESP8266 and ESP32.

Rockport, Texas

Jan. 2014 - Aug. 2018

**Skills** Python, Tensorflow, Keras, C++, Java, Linux/BSD, SQL, Latex, MS Office, Docker, Git, NumPy, Mathematica, Jupyter

## Education

### University of Texas at Austin

#### B.S. IN PHYSICS - 3.53 GPA

- **Physics** - classical mechanics, electro and thermodynamics, quantum mechanics
- **Mathematics** - multivariable and vector calculus, differential equations, linear algebra, statistics
- Participated in the design and testing of a scanning tunneling microscope for the physics senior lab.
- Additional courses in biology, genetics, organic chemistry, and biochemistry.

Austin, Texas

Aug. 2012 - Dec. 2015

### University of Texas at Dallas

#### M.S. IN COMPUTER SCIENCE - 4.0 GPA

- Intelligent systems track.
- Coursework in machine learning, deep neural networks, database design, and algorithms.

Richardson, Texas

Aug. 2018 - Present

## Extracurriculars

### X-Ray Photography 📷

#### LOW COST DIGITAL RADIOGRAPHS

- Designed an apparatus to safely capture high resolution digital radiographs using a DLSR at a low price point.
- Implemented an X-Ray control system that included multiple redundant safety mechanisms.
- Automated the capture of radiographs using MQTT and Python to coordinate multiple pieces of hardware.
- Explored post-processing techniques to remove X-Ray induced noise from captured images.

Rockport, Texas

May 2016 - Aug. 2018

### Tensorflow Portfolio 📷

#### THEORY, IMPLEMENTATION, AND TRAINING

- Compiled a work in progress collection of educational or useful Tensorflow implementations.
- Organized existing demos of image dataset manipulation and model subclassing through high level Keras APIs.
- Planned a roadmap for future work to include: handling large datasets with TFRecords, checkpointing during training, implementing attention models, and others.

Richardson, Texas

Apr. 2018 - Present

### Driscoll Children's Hospital

#### WELCOME CENTER VOLUNTEER

- 227 hours of service
- Checked in hospital visitors

Corpus Christi, Texas

Mar. 2016 - May 2017
